Preventive care covered with no cost sharing

You can get checkups, screenings, vaccines, prenatal care, contraceptives and more with no out-of-pocket costs.
Good news! Your plan covers the services listed here with no cost share as part of preventive care. This includes routine screenings and checkups. It also includes counseling you get to prevent illness, disease or other health problems.

This year there are new benefits for women’s preventive services, including preventive prenatal care, contraceptives, lactation counseling and breast pumps. You won’t have to pay anything for these services when:

• The doctor or other health care provider is in our network and the main purpose of your visit is to get preventive care
• You choose generic contraceptives
• You buy a breast pump according to the guidelines of your plan

That means no copayment and no coinsurance. You don’t have to meet your deductible first.

Many of these services are covered as part of physical exams. These include regular checkups, and routine gynecological and well-child exams. You won’t have to pay out of pocket for these preventive visits, when provided in network.

But, these services are not preventive if you get them as part of a visit to diagnose, monitor or treat an illness or injury. Then copays, coinsurance and deductibles may apply.

Aetna follows the recommendations of national medical societies about how often children, men and women need these services. Be sure to talk with your doctor about which services are right for your age, gender and health status.

Covered preventive services for adults

Screenings for:

• Abdominal aortic aneurysm (one-time screening for men of specified ages who have ever smoked)
• Alcohol misuse
• Blood pressure
• Cholesterol (for adults of certain ages or at higher risk)
• Colorectal cancer (for adults over 50)
• Depression
• Type 2 diabetes (for adults with high blood pressure)
• HIV
• Obesity
• Tobacco use
• Syphilis (for all adults at higher risk)

• Human papillomavirus (HPV)
• Influenza
• Measles, mumps, rubella (MMR)
• Meningococcal (meningitis)
• Pneumococcal (pneumonia)
• Varicella (chicken pox)

Brand-name contraceptive drugs, methods or devices only covered with no member cost-sharing under certain limited circumstances when required by your doctor due to medical necessity.

Aetna is the brand name used for products and services provided by one or more of the Aetna group of subsidiary companies. HMO and Aetna Open Access® HMO plans and QPOS® and Aetna Choice® POS in-network and out-of-network referred benefits are underwritten by: Aetna Health Inc., Aetna Health of California Inc.; and in Arizona and Texas by Aetna Health Inc. Self-referred benefits are underwritten by these insurance companies that provide indemnity plan coverage: Aetna Health Insurance Company of New York and Aetna Health Insurance Company; and in Arizona and Texas by Aetna Health Insurance Company. For self-funded accounts, benefits coverage is offered by the plan sponsor, with administrative services only provided by Aetna Life Insurance Company (Aetna). In Florida, by Aetna Health Inc. and/or Aetna Life Insurance Company. In Maryland, by Aetna Health Inc., 151 Farmington Avenue, Hartford, CT 06156. Each insurer has sole financial responsibility for its own products.
Covered preventive services for women

Screenings for:
- Breast cancer (mammography every 1 to 2 years for women over 40)
- Cervical cancer (for sexually active women)
- Chlamydia infection (for younger women and other women at higher risk)
- Gonorrhea (for all women at higher risk)
- Interpersonal or domestic violence
