Welcome to the University of Pennsylvania Virtual Benefit Fair for the 2021-2022 Plan Year

Hi. We’re CVS Caremark and we manage your prescription plan. That means we make sure you have access to affordable medication - when and where you need it. You’ve probably heard of CVS Pharmacy, MinuteClinic, or CVS HealthHUB. The one thing we have in common is we’re all part of the CVS Health family. And we all work together to help you on your path to better health.

CVS Caremark works with the University of Pennsylvania to provide you with prescription benefits. This includes determining what medications are covered under your plan, how much you’ll pay for your medications, and where you can fill prescriptions. CVS Caremark also gives you tools and services to help you stay on track with your medications and take care of your health so you can live your best life.

Caremark.com makes it easy for you to manage your medications from your desktop or smart device. Once you register, you can review your plan details, see how much your medications will cost and find ways to save, find pharmacies in your plan’s network, refill your mail service prescriptions, view your prescription history, and see your progress toward meeting your individual or family deductible. You can also set up alerts and reminders to help you stay on track.

If you had CVS Caremark prescription benefits last year, you can register at any time – all you need is your member ID number (it’s on your member ID card). Just remember that you won’t see changes for the upcoming plan year until it starts on July 1st. If you’re new to CVS Caremark, you can register on or after July 1st.

The good news is the prescription benefits are not changing for the 2021-2022 plan year. For the High Deductible Health Plan coinsurance will remain 10% at both retail and mail for all drug tiers including specialty. For Maintenance Medications, the plan allows up to 3-30 day fills at retail for the 10% coinsurance amount. In order to continue to pay 10% you must move to a 90-day supply and...
fill your prescription at either CVS Pharmacy or the Caremark Mail Order Pharmacy. If you choose to continue to fill a 30-day supply the coinsurance will double to 20% on the 4th fill. The Deductible Amount is $1500 for Individuals and $3000 for Family. The Maximum Out of Pocket is $3000 for Individuals and $6000 for Family. For the Non-High Deductible Health Plans coinsurance will remain 10% with a minimum and maximum co-pay amount at both Retail and Mail for all Drug Tiers including Specialty. For Maintenance Medications, the plan allows up to 3-30 day fills at retail for the 10% coinsurance amount. In order to continue to pay 10% you must move to a 90-day supply and fill your prescription at either CVS Pharmacy or the Caremark Mail Order Pharmacy. If you choose to continue to fill a 30-day supply the coinsurance amount will double on the 4th fill. The Maximum Out of Pocket amount is $2000 for Individuals and $6000 for Family.

Slide 7

Your Maintenance Choice plan gives you the choice of filling prescriptions for medications you take regularly—such as high blood pressure, diabetes or asthma medications—by mail or at CVS Pharmacy in 90-day supplies. Either way, the cost is the same. The good news is that 90-day supplies usually cost less, and they’re more convenient. Visit Caremark-dot-com-slash-move-my-meds to transfer your prescription.
