TIAA’s Vice President of Annuities reveals a key rule for retirement savings: It’s not about how much you save—it’s about building a guaranteed stream of lifetime income. In this seminar you will learn:

- How to develop an income plan that can help protect you from outliving your savings in your senior years.
- TIAA Traditional—How, what, and why? Understand the unique features of TIAA Traditional and how this versatile portfolio option can be used in your overall financial plan.
- Based upon feedback from the March 2, 2021, “How to turn your retirement saving into a ‘paycheck’ for life” webinar (view recording here until June 1, 2021), we will also spend some time discussing the available, “in Plan” variable annuities.

Register today for this live webinar on Wednesday, May 5, 2021, 1 p.m. to 2 p.m. (ET)

Featured speaker

Benjamin (aka Benny) Goodman is a Fellow of the Society of Actuaries (FSA) and a Member of the American Academy of Actuaries (MAAA). He is a Vice President at TIAA with 30 years of financial industry experience.

Benny has been with TIAA since 1988. He has served in a variety of actuarial positions, including having managed the Actuarial Consulting Services area with a focus on pension plan design and meeting individual retirement income needs. Benny has co-authored a number of papers for the TIAA Institute, and has been a featured speaker at college and university seminars and events across the country. Benny currently works in Individual and Institutional Services, where he serves as the subject matter expert on the TIAA Traditional product and lifetime income.
Guarantees of fixed monthly payments are only associated with TIAA’s fixed annuities. Exchanging your savings for income payments is an irrevocable decision.

“Paycheck” is the annuity income received in retirement.

Annuities are designed for retirement and other long-term goals. They offer several payment options, including lifetime income. Guarantees are based on the claims-paying ability of the issuer. However, payments from variable annuities are not guaranteed and the payment amounts will rise or fall depending on investment returns. If you choose to invest in variable investment products, your money will also be subject to the risks associated with investing in securities, including loss of principal. The value of a variable annuity is subject to market fluctuations and investment risk so that if withdrawn, it may be worth more or less than its original cost.
